Everytime we put Third Party Administration put (TPA) following it
Change Bakersfield Drug Testing dba West Coast Drug Testing around So West Coast Drug Testing dba Bakersfield Drug Testing

Remove what we have now beside the bottom icons the unbiased testing, full compliance....

We are changing it to this so

We act as your dedicated Third Party Administration (TPA), handling everything from random selections to secure results reporting.

Then three columns

Random Pool Management	End to End Coordination	Secure Reporting & Records
We manage your DOT or NON-DOT random pools, ensuring you hit your mandated testing percent every year.	From scheduling the collections to coordinating with the lab and MRO, we handle every logistic step.	Access all results, CCFs, and compliance documents in one secure place. Audit ready.

Underneath that put

Operating Solo? Join our consortium program!
Meet FMCSA random testing requirements without the administrative headache.

- FMCSA Clearinghouse support: we help you report violations and conduct required queries.
- MRO Oversight: Results are verified by a certified medical review officer before they reach you.
- Audit Support: If DOT knocks on your door, we provide the records you need to pass.

The Old Way: You call the lab, you track the driver, you chase the MRO for results, you file paperwork, you worry about the audit	Bakersfield Drug Testing Way: You Hire the employee, We handle the Rest.

Then FAQ (Here are the changes to this part)

Three section that are collapsible so it doesnt take that much room on the website then with the three sections the question should be shown then the answers collapsible

Here are the three sections and the questions and other changes

First the tittle spell out FAQ to

Frequently Asked Questions (FAQ)

Find answers for employers, drivers, and individual testing needs.

Tab One

For Employers & Managers

How does a Third Party administrator benefit my business?

We act as your compliance partner. As a professional collection site, we manage the entire process. From random pool sections and specimen collections to coordinating with certified labs and MROs. Ensuring your records are audit-ready.

What is the difference between DOT and NON-DOT testing ?

DOT tests are federally mandated for safety-sensitive roles (like CDL drivers) and follow strict 49 CFR Part 40 collection procedures. Non-DOT tests are custom programs designed by your company for general workplace safety.

Can you manage our FMCSA Clearinghouse requirements?

Yes. We assist employers with required pre-employment and annual queries, as well as reporting drug and alcohol violations to keep your company in full federal compliance.

For Drivers & Employees

Do I need an appointment or can I walk in?

No appointments are necessary. We operate as a 100% walk-in collection site to ensure the fastest service. Simply visit our facility between 8AM and 5PM

What is the typical wait time for a collection?

Because we focus strictly on professional collections, most donors are in and out within 15-20 minutes. Peak volume is typically 8:30AM - 11AM

When can my employer expect to receive the results?

Once we complete the collection, the specimen is securely shipped to a certified laboratory. Standard results are typically reported to the employer within 48 to 72 Hours.

General & Federal Compliance

Is your facility an authorized collection site?

Yes. Our facility and staff are fully certified to perform collections for all DOT agencies and NON-DOT federal programs. We maintain a sterile, secure environment that meets all federal requirements.

Which Federal Agencies do you provide collections for?

We are an authorized collection site for all DOT agencies (FMCSA, FAA, FRA, FTA, PHMSA, USCG) as well as federal agencies that follow HHS mandatory guidelines.

Those are the question and answers
